| zakariasalogo@yahoo.fr

Creative software engineer with the ability to pick up new languages and technologies as needed. Prior to being a software engineer, I managed industrial trucks overseeing safety measures, organizing materials and tracking all imported and exported goods. Since childhood I have been curious to know how things are built and the complexities of putting things together and making them work as expected .

Software Development Skills

- Debugging, JavaScript, Python, Node.js, React, Express, Redux, RESTful API, PostgreSQL, Sequelize, Bootstrap, Flexbox AWS, React , Redux , MongoDB, Mongoose, Heroku , HTML, CSS

Education

DigitalCrafts | Certificate in Software Engineering | Houston, Tx March 2020 – July 2020

- Built with Node.js, Express.js, Mustache-express, Pg-promise, PostgreSQL, Postico, CSS, Bootstrap, Javascript.

Professional Work Experience

DigitalCrafts | Over 640 hours Professional Training | Houston, TX March 2020 – Present

- I have built more than 30 Projects which can be found in my Github profile. These differ between smaller projects to medium or large ones.

CSAT Solution | Forklift operator | Houston Tx December 2019 – March 2020

- Responsible for operating and managing industrial trucks to load and unload materials and deliveries and move them to and from storage areas, machine and loading docks, into railroad cars or trucks or storage facilities.

US Steel tubular Products Inc | Machine Utility Operator | Houston Tx October 2018 – November 2019

- As a Utility Person I operated equipment and performed tasks that support the various production and service units. As a Utility Person you perform general labor duties that include the use of torches, shovels and other hand tools.
- Operated mobile equipment, in a heavy industrial environment as well as supported and assisted in maintenance of plants. Responsibilities included in every shift, threading the pipes through inspection to the Utilities Operator and working together to process every single order.
