| zakariasalogo@yahoo.fr

Creative software engineer with the ability to pick up new languages and technologies as needed. Prior to being a software engineer, I managed industrial trucks overseeing safety measures, organizing materials and tracking all imported and exported goods. Since childhood I have been curious to know how things are built and the complexities of putting things together and making them work as expected .

Software Development Skills

- Debugging, JavaScript, Python, Node.js, React, Express, Redux, RESTful API, PostgreSQL, Sequelize, Bootstrap, Flexbox AWS, React , Redux , MongoDB, Mongoose, Heroku , HTML, CSS

Education

DigitalCrafts | Certificate in Software Engineering | Houston, Tx March 2020 – July 2020

- Software engineering training program covering full-stack development including, but not limited to JavaScript, Python, including an emphasis on cutting-edge frameworks like React/Redux and server-side technologies including Node.js, Express, and PostgreSQL.

World Islamic and Education University | History, Master | Amman, Jordan | October 2006 – October 2009

El-Azhar University | Linguistics | Cairo, Egypt | October 2001 - July 2005

SELF LEARNING Websites

- Stack Overflow, Udemy, Codecademy, Freecodecamp, W3 Schools, Mozilla Developer Network

Software Development Portfolio

My Remote Shopping | <https://github.com/salogo/myRemoteShopping> June 2020

- FullStack Project where the Admin can create the product, name brand, images, price, category, count in stock, description, and update or delete. The Admin can also see the list of orders and deliver orders.
- Users can search a product, filter by sort, add to the cart, delete from the cart, check out and pay, create an account, fill out information, then place the order for shipping .
- Build with React, Redux, Node, Express, MongoDB, Mongoose, Heroku, CSS, Javascript

News App | <https://arcane-eyrie-17745.herokuapp.com/login> | <https://github.com/salogo/newsapp-2-> June 2020

- FullStack Project where the user can register, sign in, write an article, read, update, edit, delete, and view all the articles. The password is encrypted, and all the datas are saved into the remote database.
- Built with Node.js, Express.js, Mustache-express, Pg-promise, PostgreSQL, Postico, CSS, Bootstrap, Javascript.

Travel-guide | <https://my-travel-guide.surge.sh> | <https://github.com/salogo/travelguid> June 2020

- For those who like to travel around the world.
- Users are able to use this app to get to know the most touristic places to visit and the current weather.
- Built with HTML, CSS, JavaScript, Media query, third party API.

Professional Work Experience

DigitalCrafts | Over 640 hours Professional Training | Houston, TX March 2020 – Present

- I have built more than 30 Projects which can be found in my Github profile. These differ between smaller projects to medium or large ones.

CSAT Solution | Forklift operator | Houston Tx December 2019 – March 2020

- Responsible for operating and managing industrial trucks to load and unload materials and deliveries and move them to and from storage areas, machine and loading docks, into railroad cars or trucks or storage facilities.

US Steel tubular Products Inc | Machine Utility Operator | Houston Tx October 2018 – November 2019

- As a Utility Person I operated equipment and performed tasks that support the various production and service units. As a Utility Person you perform general labor duties that include the use of torches, shovels and other hand tools.
- Operated mobile equipment, in a heavy industrial environment as well as supported and assisted in maintenance of plants. Responsibilities included in every shift, threading the pipes through inspection to the Utilities Operator and working together to process every single order.
